Optimise value from used IT assets

- Sigma can advise on ensuring maximum lifespan of your assets and help with future proofing your IT estate.
- Our multi vendor expertise helps to identify equipment with resale value
- A point-to-point process gives you full visibility over the destruction and value recovery of your equipment

Disposing of unwanted IT equipment safely

- Heavy Fines can be placed upon businesses that incur a data breach
- Sigma can provide a full service to ensure retired IT assets are disposed of securely.
- Data bearing items may include, Tape media, HDD/SSD drives, USB memory, mobile phone and staff ID's.
- If you intend to distribute retired equipment to charitable organizations, Sigma can assist with ensuring data bearing drives are disposed of before handover.
